Brunswick, Maine (September 19, 2005)- SYTDesign Consultants, an established civil engineering and landscape architecture firm headquartered in Cumberland, is pleased to announce the formation of a new branch office in Brunswick, Maine. This new branch office will better serve the Midcoast Region with local site engineering and landscape architectural services.

“The Midcoast branch office will be used to provide our valued clients with quality engineering services and unmatched local support,” said Vice President Tom Saucier, P.E..

Saucier will lead SYTDesign Consultants’ branch office. The new branch office is located at 183 Park Row in Brunswick, Maine. According to Saucier, “The new branch office is dedicated to supporting the growth of local development and our staff is well seasoned to meet the demand of new business.”

“SYTDesign Consultants is extremely focused and has been providing quality civil engineering services for the past 18 years,” said SYTDesign President, W. Scott Decker, P.E.

Founded in 1987, SYTDesign Consultants operates a statewide practice providing environmental and regulatory permitting, stormwater management, site engineering, landscape architecture, and construction phase services. SYTDesign Consultants’ employees support membership in the following professional organizations: ACEC, ASCE, USGBC, ASLA, GrowSmart Maine, MEREDA, Greater Portland Chamber of Commerce, and Southern Midcoast Maine Chamber.
